

BAPO 2019 CONFERENCE

HARROGATE

15-17 MARCH

  
www.bapo.com

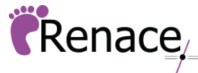

CALL FOR PAPERS

We all work in different environments with our own expertise so why not share and improve our own practice. The BAPO Conference continues to develop a strong clinical programme, therefore we seek presentations both prosthetic and orthotic of 12 minutes duration with up to 3 minutes for questions and answers.

- **Have you developed techniques that add to patient care?**
- **Do you have research to share with your colleagues that will help to improve their care of patients?**
- **Do you have a case study which illustrates good or reflective practice improvements or evidence based practice improvements?**

£500 prize available for the best free paper in each category + a complimentary ticket to our Saturday evening event

Submission guidelines available from the Conference section of the BAPO website or from the Secretariat on request.
