

Orthotic Technician: Minworth (Birmingham)

Ottobock's prosthetics, orthotics, mobility solutions and neurostimulation products ensure independence and quality of life for people with physical mobility challenges. Ottobock UK has been established for over 35 years with a professional and knowledgeable clinical, product sales, service and support team, providing service excellence to our many customers.

We are currently recruiting an Orthotics Technician at our manufacturing facility located in Minworth, Birmingham.

This exciting opportunity will involve manufacturing high end orthotic devices for NHS and private customers, including elite para sport athletes. This will involve plaster cast rectification, composite/ plastic manufacture of leg braces and insole manufacture.

Experience is preferred but not essential, all the required training will be provided on the job.

The successful candidate will also have the opportunity to learn over time, all aspects of orthotics including CAD CAM.

Candidates should have good communication skills, both verbal and written, be self-motivated and keen to work as part of a team.

Ottobock is a global company committed to staff development through training and education. We offer a competitive salary and benefits.

For further information please contact Yassar Amir (Operations Manager) on 0121 359 6323.

To apply for this position send your CV and covering letter to Yassar.Amir@ottobock.com

Closing date for Applications: 02/07/2021
