

## **An exciting opportunity for a Senior Prosthetist to join our prestigious private clinic - the London Prosthetic Centre!**

Delivering first class prosthetic care, the LPC attracts patients from across the UK and from around the world, receiving referrals from a variety of sources as such medico-legal, self-funding and embassies for international patients.

As a Prosthetist you will be required to deliver the highest standards of treatment across a range of amputation levels, both upper and lower extremity. Experience of working with high end componentry is essential to meet the needs and expectations of the private caseload.

The role will require flexibility from the successful applicant in order to constantly ensure the needs of the patients and the service are met and exceeded. Growing the reputation of the service through positive patient experience is a key responsibility of the senior Prosthetist role. This is a demanding position, working in a fast-paced environment so applicants need to be commercial, proactive, and have excellent problem solving and communication skills.

In addition to this you'll also need to:

- Assess, measure, cast, fit, deliver, supply, review and adjust prosthesis as required across a range of amputation levels, both upper and lower extremity.
- Cast and rectify models in a timely fashion using both traditional methods and CAD/CAM where appropriate.
- Manage the patient's case, including patient expectation, ensuring the individual's needs are respected and ensuring the patient is informed throughout the process with clear explanations of proposed interventions.
- Maintain good knowledge of available components and understand their function.
- Work within the parameters of accepted "best practice" at all times. To ensure that all aspects of practice conform to clinical governance at all times.
- Act as a resource for clinical cover for annual leave, sickness, planned absences or emergency cover where appropriate.
- Work as part of a multi-disciplinary team to ensure the most appropriate and effective treatment for patients.
- Identify, in conjunction with the Clinical Director and other prosthetic staff, service developments and/or improvements to ensure efficient and effective use of resources.

The list above is not exhaustive.

Excellent communication skills are essential as you will be expected to develop strong working relationships with the team, the patients, and bring in business. The successful candidate will be responsible for understanding the clinical environment and identifying development opportunities. The successful candidate will not only be clinically, but also commercially aware, demonstrating the ability to balance clinical and business need. Responsibilities will also include networking with other professionals and providing in-house training presentations to raise awareness of our skills and services.

In return, Steeper are offering a highly competitive salary, benefits package and the scope to expand and develop the Senior Prosthetist role in a rewarding environment.

If you care passionately about the service you deliver, act with integrity in ethical decision making and care about making a difference to patient's lives, then Steeper would be a great career opportunity as your next clinical role.

For further information or informal discussions on the role, please contact Ian Rodger (Director of Prosthetic Services) [ian.rodger@steepergroup.com](mailto:ian.rodger@steepergroup.com) or call 07525265604.

If you would like to work with the largest group of Prosthetists and Orthotists in the country, then please apply by sending your CV to [hr@steepergroup.com](mailto:hr@steepergroup.com).
