Prosthetic Technician - Wirral University Teaching Hospital

Our branch at the Wirral Limb Centre is looking for an enthusiastic and motivated Prosthetic Technician to join our Multi-Disciplinary Team. Wirral is situated in the North West of England. It has a stunning coastline and beautiful countryside, making it a great place to live and work.

As a Technician, you will be responsible for the manufacture, design, adjustment and repairs of prosthetic devices to the specification prescribed by the Prosthetist and component manufacturer.

Applicants ideally will have proven experience in a similar role but less experienced candidates will be considered. A technical aptitude and good hand-to-eye coordination skills including an eye for detail are suitable traits.

Duties / Responsibilities:

- Experience and training in prosthetics would be advantageous
- The successful applicant will consistently achieve high-quality standards and meet tight deadlines
- To integrate and work as part of the Multi-disciplinary team within the Wirral clinic
- To understand and adhere to the requirements of health and safety legislation in compliance with the health and safety at work act

The successful applicant will receive extensive training and will have the opportunity to exchange knowledge, support and resources with your colleagues in-house.

We offer a competitive remuneration package which will include a company pension scheme and private healthcare.

For an informal and confidential discussion please contact:
Craig Armstrong on 0151 343 9990 or if you wish to apply please send your CV and covering letter to: Craig.armstrong@ottobock.com

Closing Date for Applications: Friday 16th September 2022
