

Prosthetic Workshop Technician Burton Upon Trent

We are currently seeking a skilled Prosthetic Workshop Technician to join our successful Midlands Clinic, based in Burton upon Trent.

In this role, the prosthetic technician is responsible for manufacturing all levels of prosthetic limbs and possible production of orthotic manufacturing.

This is a full-time position and is based at our Midlands Clinic in Burton-upon-Trent.

Duties Include:

- To manufacture all levels of prosthetic limbs and possible production of orthotic manufacturing.
- To consistently achieve quality standards, and meet tight deadlines.
- To integrate and work as a team member within the Midlands clinic.
- To work as directed by the Clinic Manager/Production Lead.
- To work closely with the Clinic Manager and other members of the prosthetic team, to ensure that clinical directives and standards are adhered to.
- To ensure that your workbench and all related manufacturing areas are maintained in an organised, clean and safe fashion.
- To undertake 'Safe Working Practices' for all tooling and equipment, and be aware of the Health & Safety responsibilities.
- Attend any related meetings as directed / appropriate, please note this role will have some patient contact, so good communication skills are required.
- To follow set processes and adhere to monthly Key Performance Indicators.
- To understand and adhere to the requirements of Health & Safety legislation in compliance with the Health & Safety at Work Act and to ensure your own safety and that of the Patients and Clients in the Clinic is assured.

Administrative skills required:

- Strong interpersonal skills and effective communicator (Essential). Be able to work under pressure.
- Strong organisational skills, ability to multi-task and effectively prioritise. (Essential).
- Self-motivation and drive to complete tasks and ability to interact and communicate confidently with Patients, Clinicians, Suppliers, Peers and Associates of all levels. (Essential).

Technical skills required:

- To liaise with the technicians and provide clear concise instructions to facilitate the successful delivery of the prosthesis.
- To highlight any non-standard requests and production issues in a timely manner to the workshop manager or supplier.
- Practical engineering (with good hand skills) is required.

Additional information

- Performance will be appraised annually as part of the company's performance review process.
- This job description is not intended to be exhaustive, and the post

holder will need to be flexible in their approach (undertaking as necessary, any other duties appropriate to the job).

- This role is full-time, based on a 40-hour working week split over 4 days each week; 10 hours per day. This position offers a competitive salary and benefits package.

We would like to hear from you if you possess the knowledge and skills to excel in this role.

Please send your CV, or any questions you have about this role, to Midlands Clinic Manager, and Head of Clinical Services, Moose Baxter: mooseb@dorset-ortho.com

Closing Date for applications: 5th October 2022
