

# Nottingham University Hospitals - Band 3 Orthotic Technician, Nottingham

Nottingham University Hospitals   
NHS Trust

**Band 3 Orthotic Technician**  
**Permanent contract**  
**Full time - 37.5 hours per week (Monday - Friday)**  
**Salary £21730 - £23177 p.a.**

**Closing date: 16/05/2023 23:59**

## Job overview

We are looking for a highly motivated individual wishing to work in a friendly and forward thinking workshop.

This is an orthotic manufacturing role, making custom made insoles, using FIT360 CAD/CAM software, to clinical specifications outlined by an Orthotist. The insoles are manufactured using EVA's/PU and Polypropylene blocks. It is a non-patient facing role that improves patient lives greatly. Ideally experience in some form of manufacture, and/or use of CAD/CAM is desirable but role specific training will be given in-house to the successful candidate.

## Main duties of the job

In addition to the below summary, please familiarise yourself with the full Job Description and Person Specification documents in the link at the bottom of this advert.

The main duty is manufacturing insoles, both designing and milling with CAD/CAM and finishing with the machinery in the workshop. In addition to insole manufacture, this role requires the Technician to undertake adjustments and adaptations to a variety of thermoplastic orthotic devices.

## Working for our organisation

The workshop is based at the Queens campus, Nottingham and is one of the leading NHS manufacturing units in the country, providing a full range of contemporary custom made orthotic devices with a dedicated CAD/CAM facility for insole manufacture. The Orthotics department consists of 10 Orthotists, 6 Technicians and 7 Administrators across 2 sites treating patients across Nottinghamshire and the surrounding areas. The NUH Orthotics department is driven by improving patients lives and mobility.

Applicants should preferably be members of BAPO.
