

NEW GRADUATE ORTHOTIST POSITIONS IN LEEDS AND BUCKINGHAMSHIRE

TayCare Medical Ltd is seeking to employ highly motivated and enthusiastic graduate Orthotists, keen to start their career with a trusted and caring employer.

TayCare is a family-owned business, based in Leeds, with a sole focus on Orthotics. Our workforce consists of more than 25 Orthotists and 70 Technicians. We prioritise patient care, supported by the provision of high-quality products. At TayCare we provide a full range of orthotic services, to both the NHS and our private patients. We operate nationally, with our facilities in Leeds and Birmingham supporting our services, by manufacturing excellent custom orthoses and footwear.

As a successful applicant you will be based in either Leeds or Buckinghamshire. Our service in Buckinghamshire includes the Complex Orthotic Clinic at The National Spinal Injuries Centre based at Stoke Mandeville Hospital. More details of the roles are available on request and will be provided at the interview stage.

As graduates you will be involved in a variety of different hospitals and community clinics. You will work alongside other AHPs, within multidisciplinary clinics, to allow you to develop confidence and clinical knowledge. Exposure to a broad variety of clinical conditions such as MSK, neuro rehab/stroke, diabetic foot care, paediatrics, and inpatient care, including spinal trauma will enhance your experience and understanding.

Our high-quality preceptorship programme will be supported by the NHS Trusts where we work. TayCare will support you to gain the essential confidence required to consolidate safe and effective patient care. You will be supervised and supported by our experienced team of Orthotists, during a period of structured support and development, so that you acquire the capability required to operate as an autonomous healthcare professional.

You will also receive support and learn from working with our skilled technicians, dedicated administration and approachable, clinically led, management team.

As well as a highly competitive starting salary, our graduates receive:

- 25 days holiday entitlement plus Bank Holidays
- Fully funded travel and car allowance
- Dedicated Clinical Professional Development time, including opportunities for development and a comprehensive training package
- Scope for involvement in company projects

Before employment starts you will need to be HCPC registered, hold a full UK driving license and have completed an enhanced DBS check. BAPO membership is preferred.

We would welcome your C.V., with a covering letter, sent to: recruitment@taycare.com

January 31st 2024 is our closing date for applications.

Before that date, we will arrange for a **candidates zoom meeting** to introduce you to these roles and the opportunities TayCare offer.

Virtual interviews will take place during February 2024 for those selected.
