

Job Advert

Prosthetics Product Manager

Hybrid work UK & Overseas

Exciting opportunity for a Prosthetics Product Manager to join our established team!

We currently have an exciting opportunity within the Steeper sales team for a Prosthetic Product Manager, to support and grow sales of all Steeper prosthetic products both within the UK and overseas.

In 2023, Steeper became part of the Eqwal family, meaning you would not only be joining a leading UK Prosthetic manufacturer and distributor, but you would also be part of the 4th biggest P&O company in the world.

This is a great opportunity for clinicians who want to broaden their horizons, gain international experience & travel, and be involved in providing first class clinical support to clinicians and customers in the UK and overseas. The successful applicant would also be involved and potentially present at both National and International conferences such as BAPO, ISPO UK, ISPO World Congress and OT World, Leipzig.

Applicants should have a minimum of 5 years clinical experience; however, this unique opportunity will be supported with a comprehensive training package including product knowledge right across the Steeper product portfolio, including high end componentry and High-Definition Silicone.

The position will require commercial awareness along with good financial understanding, however further training and support will be provided in these areas. The successful candidate will be responsible for maintaining and improving existing client relationships and developing new opportunities.

The role has considerable potential for development in scope, responsibilities, and remuneration for the successful applicant.

If you would like to work with the largest group of Prosthetists and Orthotists in the country, then please apply by sending your CV to hr@steepergroup.com. For further information on these exciting positions please visit our website <https://www.steepergroup.com/about-steeper/careers/current-opportunities/>
