

# GLOBAL ADVANCED PRACTICE SUMMIT

## 13 MAY 2025 | ONLINE CONFERENCE

The **Global Advanced Practice Summit** is an innovative, 24-hour virtual event designed to connect advanced practitioners from around the globe, bringing the perspectives of thought leaders, cutting-edge topics and new ideas to your laptop.

Focused on advancing practice, leadership, and innovation, the Summit will provide a high-impact learning experience that promotes international collaboration, experience sharing and advocacy.

The Summit's unique 24-hour format, featuring poster-style presentations and interactive round-tables, will be a pivotal moment for advanced practice and enable true global participation.

### A NEW GLOBAL NETWORK

Since its launch in 2023, the Global Advanced Practice Network (formerly known as AHP Advanced Practice Community of Practice) has grown into a thriving online community of advanced practitioners, policy makers, and leaders, fostering international collaboration and sharing of knowledge. Exclusive monthly webinars led by global experts have explored essential topics like building advanced practice frameworks, tackling policy barriers, and advancing clinical education.

From 1 January 2025, the Network will transition to a subscription-based model, offering even greater value with monthly webinars on new applied topics, resources, and ongoing learning and networking opportunities, as well as ongoing access to existing resources.

**Secure your place at the forefront of advanced practice today with an early bird ticket to the Global Summit + an annual Network membership!**
