

Band 5 Prosthetist / Orthotist

Full time – 37 hours – Permanent

Raigmore Hospital – Inverness

An exciting opportunity has arisen for an enthusiastic and self-motivated individual, to join our in-house team at Raigmore Hospital, Inverness. This is a unique opportunity to develop your clinical skills as a dual practising Prosthetist/Orthotist, in the fast-paced setting of the largest acute hospital in the Scottish Highlands.

The Prosthetics and Orthotics Services comprise around 12 staff, including Prosthetists, Orthotists, Orthotic Assistants, Technicians and Administrative support. Many devices are manufactured in our in-house workshop, and clinicians work closely with our technical team to ensure devices are manufactured to the highest standard. Clinicians are encouraged to carry out their own plaster rectification, CAD-CAM modelling and modification of devices in the workshop.

As part of a small team, the clinical caseload is varied, with the opportunity to develop skills in all areas of Prosthetics and Orthotics. We encourage a close working environment with other clinical specialities, with clinicians regularly attending multidisciplinary clinics and joint working with other AHP's. The caseload for this post is split with 80% in Orthotics and 20% in Prosthetics, however a flexible approach is required to provide cover during periods of staff leave or absences.

We are seeking a dynamic, forward-thinking and driven clinician who is keen to develop their skills across both disciplines. The successful candidate will benefit from support and preceptorship to progress in their role and protected CPD time. We welcome applications for this post from new graduates, as well as more established clinicians who are looking to progress their career.

Inverness is a rapidly growing University city, at the heart of the Highlands, with easy access to leisure opportunities provided by the great outdoors.

Candidates must be HCPC registered, have a full driving licence and preferably members of BAPO.

Closing date: 21 May 2025.

For informal enquiries, please contact:

Stuart Harvey, Lead Orthotist.
