

## Job Advert Clinical Trials Prosthetist, Basingstoke

**Do you want to put your clinical expertise to work in a whole new way?**

**Help shape the future of Blatchford products by using your clinical insight to help bring amazing ideas to reality that truly make a difference.**

Blatchford is a multi-award winning, global manufacturer of some of the world's most advanced prosthetic technology, bespoke seating solutions and orthotic devices. Our evidence-based approach and commitment to continuously challenge possibilities ensures our mobility solutions prioritise the wellbeing and long-term health of our users.

Through science, technology, and maintaining a clear focus on people, we make mobility possible.

We are driven by a clear purpose: to deliver superior clinical outcomes. We have a brand new, exciting opportunity for a **Clinical Trials Prosthetist** to strengthen our global clinical research team and ensure our pioneering technologies are validated with the highest standards of safety, ethics, and scientific rigor.

### **The role**

As **Clinical Trials Prosthetist**, you will focus on prosthetic products, along with supporting other product/clinical areas. This is a flexible opportunity to share your expertise, influence product development, and help bring innovative mobility solutions to life.

### **Key duties:**

- Providing clinical oversight for all participants in Blatchford-sponsored clinical trials across our varied products
- Providing direct clinical input to our prosthetic R&D and Marketing advocates to maintain your clinical registration
- Ensuring compliance with clinical trial protocols, Good Clinical Practice and regulatory requirements
- Supporting trial design by contributing clinical expertise to protocol development, feasibility assessments, and outcome measures
- Liaising with our clinical teams based in the UK and Norway and our global educators to ensure their 'on the ground' feedback is heard and incorporated when appropriate
- Presenting our clinical findings at national and international conferences
- Serving as the clinical point of contact for investigators, study coordinators, regulatory authorities, and internal teams
- Overseeing accurate clinical documentation and supporting the interpretation of trial data
- Contributing to Blatchford's mission of advancing mobility by ensuring our innovations are validated with robust clinical evidence

### **What can we offer you?**

As **Clinical Trials Prosthetist**, you will receive the following:

### Benefits

- Highly competitive salary
- Flexible, hybrid working
- 25 days holiday (rising with service)
- Option to purchase additional annual leave
- Pension
- Death in service
- Discounted shopping and leisure activities
- Health cash plan
- Cycle to work scheme
- A meaningful role where your work directly improves patients' mobility and independence
- A collaborative, international research environment at the forefront of medical technology
- Opportunities for professional growth and development within a global innovation leader

### What are we looking for?

#### Key skills

- Qualified Prosthetist experience
- Good level of clinical experience
- HCPC registration
- Strong product knowledge in lower-limb prosthetics, including familiarity with microprocessor and mechanical prosthetic systems
- Have experience of clinical trials or research
- Good knowledge of ethics, and regulatory standards
- Excellent communication and collaboration skills, with the ability to work across multidisciplinary and international teams
- Passionate about advancing patient outcomes and bringing life-changing technologies to market

If you feel like you meet the above criteria for this exciting **Clinical Trials Prosthetist** opportunity, then please apply via the following link:
