

Discover **YOUR FUTURE** in Prosthetics and Orthotics

Summer School • 2nd and 3rd September 2026 at Keele University

Are you passionate about making a difference in people's lives?

Curious about a career that blends problem solving, medical and engineering technology, and compassion?

Looking for an inspiring career with opportunities in healthcare, research, education, leadership, medical device design, and much more!

BAPO are excited to support a **FULLY FUNDED** 2-day summer school for **CURRENT HEALTHCARE WORKERS**, providing opportunities to develop your transferable skills for a new career in Prosthetics and Orthotics

WHAT TO EXPECT:

- **SPEAKERS:** Hear from leading professionals in the field of prosthetics and orthotics who will share their experiences and insights including clinical and research colleagues.
- **WORKSHOPS AND DEMONSTRATIONS:** Engage in practical sessions where you can participate to experience prosthetic and orthotic technology with an industrial partner demonstration from OSSUR.
- **STUDENT PANEL:** Q&A session with current students in MSc Prosthetics and Orthotics programme.
- **PATIENT/SERVICE USERS EXPERIENCE:** Hear firsthand accounts from patients who have benefited from prosthetics and orthotics, providing a real-world perspective on the impact of this field.
