**Senior Prosthetist - Plymouth**

**Band 6 - £39,959 TO £48,117**

## **Livewell Southwest - Plymouth**

Livewell Southwest is seeking an experienced and motivated Prosthetist looking to progress their career within a supportive, clinically led service.

As an independent social enterprise in-house service provider, Livewell Southwest offers clinicians a high degree of professional autonomy. The role provides the opportunity to work collaboratively with the full range of prosthetic suppliers, enabling clinically driven decision-making and bespoke solutions tailored to individual patient needs.

The successful applicant will join an established service of over 20 staff and work within a genuinely integrated multidisciplinary team. This includes experienced prosthetists, a consultant, specialist physiotherapists, a specialist nurse, clinical and administrative staff, and an on-site prosthetic technician team supported by a full manufacturing facility.

You will manage your own caseload and be responsible for clinical assessment, data capture, provision and review of a wide range of prosthetic interventions. The service supports patients of all ages and with a broad spectrum of clinical presentations, offering significant scope to develop and consolidate senior-level practice. The role will also offer the opportunity to line manage and mentor colleagues and students, participate in research and audit and participate in service development.

The service is based in the South West, offering access to Devon and Cornwall's coast and moorland and the lifestyle benefits that offers. For applicants considering relocation, the area provides opportunities to balance senior clinical practice with a varied lifestyle, supported by relocation assistance where appropriate.

Applicants should ideally be HCPC registered and preferably members of BAPO.
