# Job Advert
# Somerset NHS Foundation Trust
# B7 Specialist Orthotist

We are looking for an enthusiastic, highly motivated and experienced Orthotist to join our growing team in Somerset.

This is an exciting opportunity for a Band 7 Specialist Orthotist, with a particular focus on leading the Orthotics diabetic service and associated pathways across Yeovil and the community. The post will suit an Orthotist with substantial experience in managing complex clinical presentations, especially for patients with diabetes.

Applicants who demonstrate strong clinical capability but do not yet meet the specialist diabetes requirements of the Band 7 post may be considered for a Band 6 Orthotist role. The Band 6 position will focus on delivering high-quality orthotic care across a varied and complex caseload, with opportunities to further develop clinical expertise, service development and leadership skills.

You will be joining a supportive and developing team, working as part of MDTs and with a varied caseload across acute and community settings. The role spans all pillars of practice including leadership, education, line management responsibility and service development.

We are looking for someone who is confident working with highly complex cases and who is keen to help shape and strengthen the service as it continues to grow.

Somerset County-wide travel, including ward cover, is essential. Flexible and part-time working applications are welcomed.

**Closing date 15th November 2026**
If you are interested in applying, we would love to hear from you.
